

Align Your Giving With Your Values

**YOUR DONOR-ADVISED
FUND PARTNER SHOULD
SHARE YOUR VALUES.**

Working with East Bay Community Foundation (EBCF) offers you opportunities to apply social justice values and a racial equity lens to your philanthropic giving and build a deeper connection to the East Bay.

Rooted in the East Bay

EBCF is a place-based organization transforming good intentions into community impact. Because of our deep commitment to Alameda and Contra Costa counties, our team can offer you a truly East Bay giving experience.

Gain Insight from Local Experts

Partnering with EBCF is an investment in your local community. Our staff are experts on the issues affecting our community and they can help you understand the root causes of inequities in our region. You will also learn from local organizations and the movement leaders on the front lines of social change.

Create Impact in Your Community

Working with an EBCF philanthropic advisor gives you access to the most effective ways to create impact aligned to your social justice values.

Expand Local Investment

EBCF has operated in the East Bay for nearly 100 years, and we are committed to making our home fair and inclusive for everyone. Fees you pay for the management of your fund stay in the East Bay and support our strategic regional approach.

A Community Aligned to Your Values

We are proud to serve as a convener and civic home for our community. At EBCF, you will find a community of like-minded donors driven to advance an inclusive, fair, and just East Bay. Here are some of the reasons our community of fund advisors are proud to partner with EBCF:

- » **Learning opportunities** through our blog, email newsletters, and events allow fund advisors to explore the most effective ways to have an impact.
- » **Community interest funds and giving circles** allow you to widen your impact across multiple local organizations and leaders.
- » The **hate-free grantmaking clause** of our grants due diligence policy ensures that no dollars granted by EBCF from a Donor-Advised Fund will support organizations engaging in hateful activities.
- » Our **inactive funds policy** ensures that all our fund advisors are actively involved in using their funds to create community impact.
- » Beyond current socially responsible investing standards, **100% of the assets that EBCF manages on behalf of our community of fund advisors are invested with racial justice as a focus.** We screen our investments to avoid industries that are not aligned with our mission and values.

Impact Opportunities Beyond Grantmaking

Choosing EBCF as the partner for your Donor-Advised Funds (DAF) opens opportunities for community impact in addition to the grants you recommend.

Opportunity Pool

When you open a DAF or other fund, you choose between six investment pools. The Opportunity Pool is managed by fund management firms led by women and Black, Indigenous, and people of color.

Impact Investing

At EBCF, you have the opportunity to use your DAF to make program-related investments in the form of loans, loan guarantees, and private equity investments to pre-selected, local entrepreneurs and community benefit projects.

Together we can move beyond traditional philanthropy and create conditions for all to grow and thrive. Join our community of active supporters and partners dedicated to advancing social change and building an inclusive, fair, and just East Bay.

Contact Us

Call our Development Department at (510) 836-3223 or email development@eastbaycf.org to start your journey with EBCF.
